WHATSAPP EXPERIENCE

What your customer actually sees

This is the client-facing story you can present: a customer messages the business, gets guided options, chooses a package, fills a quick enquiry, and is smoothly connected to the sales team.

- ✓ Auto greeting with travel menu
- ✓ Domestic and international package selection
- ✓ Package detail with price and duration
- ✓ Enquire now, call now, or itinerary download actions
- ✓ WhatsApp-native enquiry capture
- ✓ Agent notification after form completion

WHATSAPP USER JOURNEY

From first message to package enquiry

01**Customer starts on WhatsApp**

A user sends a simple message like "Hi" and the system creates a lead instantly.

02

Auto greeting and package menu

The customer sees a welcome message with Domestic and International package choices.

03

Package selection flow

Relevant packages appear with price, duration, highlights, and enquiry actions.

04

Enquiry form inside WhatsApp

The user submits travel date, travellers, budget, and optional trip notes.

05

Agent handoff and booking follow-up

The team gets notified with the full lead summary and can continue the sale fast.

IDEAL FOR

Travel businesses that need structure without losing the personal touch

Use this brochure for agencies, tour operators, destination specialists, travel consultants, and hospitality-focused sales teams.

It positions your platform as both a CRM and a revenue engine, not just a chatbot.

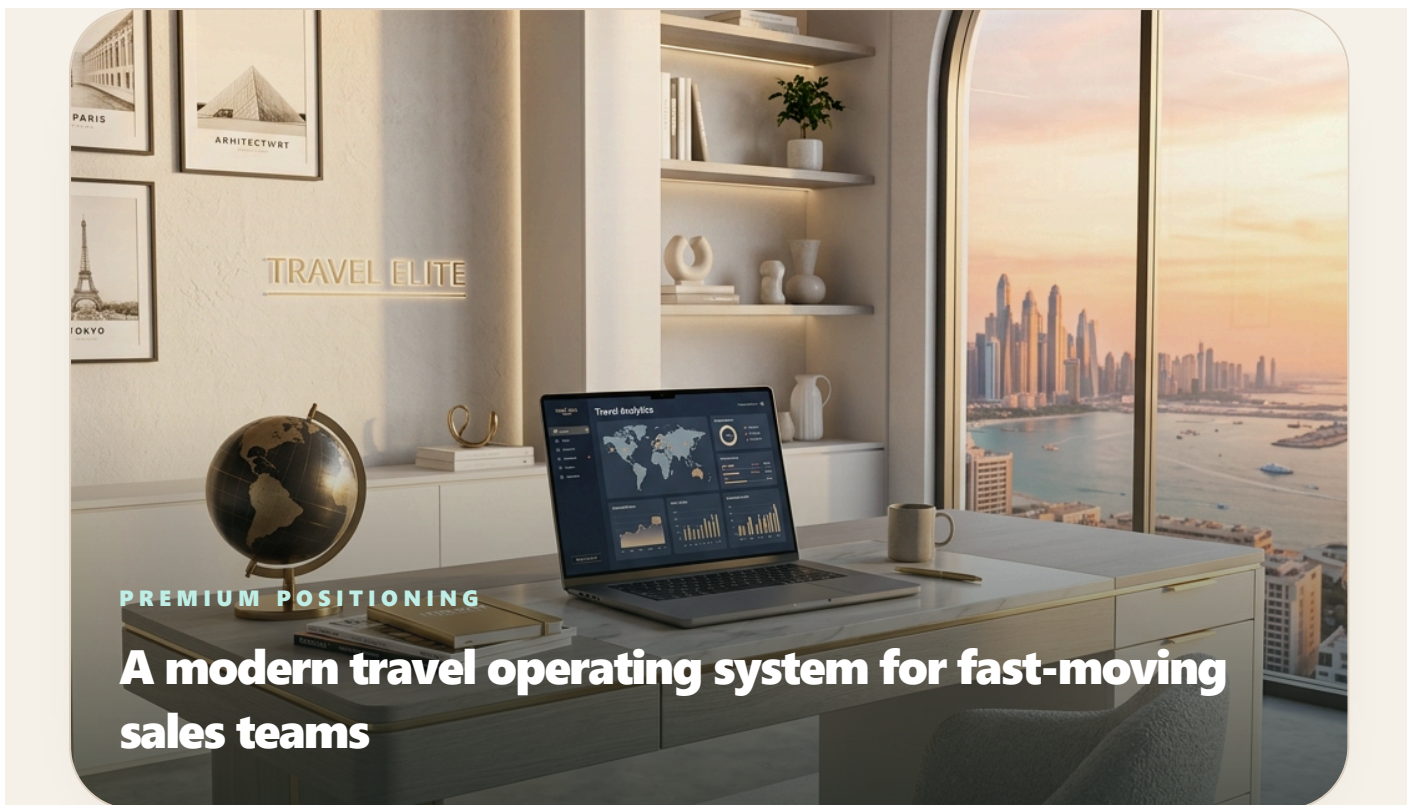

CLIENT JOURNEY

How the workflow feels in real use

- 1 Customer sends an enquiry on WhatsApp.
- 2 The bot qualifies the lead and collects trip details.
- 3 Your team shares packages, itineraries, and property options.
- 4 Agents follow up, send quotes, and close the booking.
- 5 Payments, reviews, and analytics stay in one system.

VISUAL STORY
